REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: The relevant prior art neglects to disclose with such specificity the coagulation clamp in the application's sole independent claim (1). There are nearly 20 elements in the independent claim, mostly describing the coagulation clamp's common joint (2) and its constituents.

The Applicant posited Giurtino et al. (5,697,949) but even that patent does not sufficiently disclose or suggest what the Applicant has claimed. For example, the Applicant claims a sleeve (71) and an insert (72) located in a joint axle (7) in a telescoping fashion.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
